Package / Group Rates

The package rates save up to 5-10% on construction costs. To qualify for the package rates, we only have a few simple requests.

1. 6 or more buildings with a minimum total square footage of 500,000 SF.
2. The buildings may come from one or multiple owners to make the minimum requirements. The buildings can be spread between our three locations, Southern and Northern California and Seattle Washington.
3. Saunders must have 45-60 days advance notice before we start the projects, and the buildings will be completed in a consecutive sequence. (Sometimes this may include 1-4 buildings at a time, unless they are large square footage buildings).
4. Contracts need to be signed for all buildings, even with multiple owners.
